PROFILE SUMMARY

With over a decade of hands-on experience, I specialize in building high-performance mobile and web applications that delight users and scale with confidence. From pixel-perfect interfaces to bulletproof backend systems, I bring deep expertise across the full development stack.

- **Frontend Mastery:** Proficient in HTML5, CSS3, JavaScript, and a specialist in React and React Native, I design intuitive, responsive interfaces that drive engagement.
- **Backend Strength:** Skilled in Laravel and Express.js, I architect secure and efficient APIs that power dynamic applications.
- **Database Fluency:** Adept in MySQL and MongoDB, ensuring data flows seamlessly from storage to screen.
- **Team Collaborator:** A natural communicator and proactive problem-solver who thrives in cross-functional teams, delivering products from vision to launch.

EDUCATION AND CERTIFICATIONS

Bachelor of Arts in Geography Dagon University, Yangon	2010 – 2013
Certificate of Web Designer CREATIVE Web Design & Development	2013
Certificate of Web Development CREATIVE Web Design & Development	2014

- JavaScript / PHP
- ReactJS / React Native (cli/expo) / Next.js
- Redux / Redux Toolkit / React Hooks
- Laravel · Node.js (Express.js)
- MySQL · MongoDB · PostgreSQL
- HTML5
- CSS3 / SCSS / Bootstrap / Tailwind CSS
- Git (CI/CD)
- Prisma, Supabase
- Docker

WORK EXPERIENCE

Application Developer

2024 – 2025

Globiance

- Developed and maintained the Globiance Mobile Application — a robust cross-platform banking and exchange solution built with React Native, supporting both iOS and Android environments.
- Led the full platform migration from Version 2 to Version 3, ensuring seamless integration and consistency across the system architecture.
- Integrated critical financial modules such as QRPay, trade market, and card management, significantly enhancing platform functionality and user capabilities.
- Conducted comprehensive code reviews and implemented performance optimizations, resulting in improved application stability, responsiveness, and scalability.
- Identified and resolved high-impact bugs and user experience issues, contributing to a smoother, more reliable app experience for end users.

Fullstack Developer

2022 – 2024

Ananda (Digital Myanmar)

- Developed and maintained an Attendance Mobile Application System used by 1500 users across 3 different regions.
- Customize React Navigation and use mapboxSDK to save the Budget.
- Enforce geofencing in the attendance system to restrict users from checking in outside the designated office location.
- Developed the Tutu Fiber website, ensuring high performance and responsiveness. Built data calculator and Multi-step survey form with dynamic-field using React-hook-form and yup.
- Implemented authentication and authorization using Redux Toolkit, ensuring secure, efficient user management and state handling.
- Developed and utilized custom CSS for styling and JavaScript functions for interactive features, enhancing the application's usability and performance.
- Provided ongoing support and maintenance, troubleshooting issues and optimizing performance.

Senior Web Developer / Team Lead

2019 – 2022

CREATIVE Web Studio

- Developed and maintained Drupal-based websites and web applications.
- Developed and maintained web applications for Telenor Selfcare and migrated with Drupal user Database, for Telenor's campaigns and promotions (e.g. Flexiplan, The Mask Singer).
- Developed and maintained Telenor Myanmar's Ecaf Sim Registration project.
- Hiring newbies and providing training and technical support, especially in frontend and Drupal.
- Provided and follow-up weekly and monthly web analytics and issues tracking reports for the Myanmar National Portal.
- maintained VueJs project E-registration of MINISTRY OF HEALTH
- Meeting with the clients to gather requirements design and data.
- Find the solutions of the complaint up to 300 clients.

PHP Developer

2016 – 2018

Nexthop IT Service Provider

- Developed web applications (EDMS Government's projects) by using PHP (Codeigniter Framework)
- Meeting with the clients to gather requirements design and data.
- Create the documentation and CMS user guides.
- Writing clean, efficient, and maintainable code in CI.
- Providing technical support and guidance to other team members.

Web Developer

2014 – 2016

CREATIVE Web Studio

- Built customized HTML Design Template by using (Bootstrap, and JQuery) and integrated it into Drupal Theme
 - Learned about Drupal CMS, Customize theme and module, SDLC, and Web Design & Development from the Senior.
 - Provided ongoing support and maintenance, troubleshooting issues and optimizing performance.
 - Meeting with the clients to gather requirements design and data.
